Scott Brothers Exhibits Portable Coolers in Debut at Executive Hire Show 2009

(1st December, 2008) Scott Brothers Ltd., the specialist distributor of innovative portable cooling solutions to the UK hire and retail markets, will exhibit its energy-efficient range of evaporative coolers for the first time at the Executive Hire Show, Ricoh Arena, Coventry, 11th - 12th February 2009. Scott Brothers is the sole distributor of the Seeley range of portable evaporative coolers for the UK and Ireland and will be showcasing a number of coolers from the Seeley Convair and Breezair range. Two new coolers will be introduced at EHS, further strengthening Scott Brothers' range of portable coolers suitable for cooling an extensive number of environments from home use through to larger warehouses and marquees. The new coolers are powerful, incorporating an electronic digital display panel with remote control.

Duncan Pratt-Thompson, Head of Sales at Scott Brothers Ltd comments, "Our stand at the Executive Hire Show in February 2009 gives buyers the opportunity to see the best selection of portable evaporative coolers in one place. There will be demonstrations of the Magicool cooler taking place over the course of the two days showing the principle of how all the coolers work and a chance to view our new evaporative coolers website www.scott-air-cooling.co.uk specifically designed for the hire trade market."

Displayed at the show will be the Convair series of portable coolers, which are ideal for the hire and industrial markets. The range includes the successful Magicool, Mastercool and Commander (favourite of the hire industry), which are suitable for rooms and offices from 15m² up to 30m². In addition, the recently launched new Breezair Mobile Evaporative Cooler EA120SVM will also be on show, which enables larger areas up to 120m² to be cooled effectively using portable equipment. Bioclimatic coolers provide a high cooling effect whilst utilising little energy and use no refrigerant chemicals, providing steady cooling in a safe, cost-effective and environmentally friendly way.

Duncan comments "Scott Brothers is very excited to be exhibiting at the Executive Hire Show in February 2009. We are focused on developing wide spread adoption of portable evaporative coolers in the hire industry, suitable for cooling a large number of facilities from homes, offices and smaller rooms such as a conservatory or bedroom, through to factories, large warehouses, mezzanine floors, shops, showrooms, conference rooms and temporary tents and marquees. The units are very convenient for use at events and have many outdoors applications, thus are particularly suited to the hire and professional trade markets."

From its purpose-built base in Cheshire, Scott Brothers offers complete stock and full spare parts support in addition to a technical helpline and on-site training to trade and hire customers. For more information on the range of portable evaporative coolers, please visit Scott Brothers Ltd on stand E38 at the Executive Hire Show 2009.

The units can be ordered directly from Scott Brothers, for delivery within 7 days in the UK. Please call +44 (0)1477 539 500, alternatively e-mail sales@scott-air-cooling.co.uk or visit www.scott-air-cooling.co.uk

-Ends-
